

“The Art & Science of Financial Awareness for Women: Sorting Through Myth & Misinformation about Financial Planning”

Are you in danger of outliving your wealth? Do you know that women live over five years longer than men? Have you saved enough? Are you aware that women earn 75% of men's income? How safe is your money? If you are concerned about the risk your money is exposed to, you must attend this important symposium to protect what you've worked so hard to earn. Every woman in attendance will be offered a FREE Retirement Savings Analysis (a \$149 value) and other valuable gifts.

Most financial seminars are veiled attempts to sell products, especially deferred annuities. Our symposium is unique. We've designed this interactive symposium to uncover the truth about financial advice. We think you deserve the truth. If you attend only one seminar this year, this is the one!

TOPICS TO BE DISCUSSED:

- How to **SPEND & ENJOY YOUR WEALTH WITHOUT FEAR OF RUNNING OUT!**
- Learn what your **FINANCIAL PLANNER** won't do for you
- Find out what your **STOCKBROKER** doesn't know
- **FOUR FACTS YOU MUST KNOW** about **WALL STREET**, banks, insurance companies and other financial institutions before you give them another dollar
- Why your current **ESTATE PLAN** is doomed
- **The IRA & 401(k) SHELL GAME** and how it can decimate your distributions
- **SIMULTANEOUS Wealth Building, Distribution and Conservation** and why the financial services industry doesn't want you doing all three at the same time
- **INTEGRATION & COORDINATION** of your **PROTECTION, SAVINGS & GROWTH**
- **THE DIFFERENCE** between marketing hype, half-truth and economic principle
- Qualify your true **RISK TOLERANCE** level - It's lower than you think
- **TAX RECOVERY & RECAPTURE STRATEGIES** - your tax bill is too high!
- **HOW THE IRS, THE FED AND THE TREASURY HAVE DESTROYED THE POWER OF COMPOUNDING** - and what you can do to get it back
- Why your automobile insurance policy may be **JEOPARDIZING YOUR ASSETS**
